

McKISSICK®

RJ Style Drilling Blocks

McKISSICK® RJ Style Drilling Blocks

Licensed Under
API Spec 8C-0021

Crosby®

- ✓ Capacities Available: 150, 250 & 350 Tons
- ✓ Double row, pre-adjusted tapered bearings with seals.
- ✓ Blocks contain McKissick® Roll-Forged™ sheaves with flame hardened grooves.
 - Grooves are API profile.
- ✓ Separate lubrication channel to each sheave.
- ✓ Easy opening guards for quick string-up (no bolts to pull out and lose).
- ✓ Each hook block is fitted with position lock and swivel lock assemblies.
- ✓ Additional weights available upon request.
- ✓ Manufactured to the requirements of API 8C, including all documentation.
 - Each block is individually serialized for full traceability.
 - Furnished with Certificate of Conformance.
- ✓ Hook is spring loaded with hydraulic snubber.
- ✓ Minimum design temperature of -20 degrees C (-4 degrees F).
- ✓ Standard top coat finish is *safety orange* enamel.
 - Other paint colors and systems are available on request.
 - Individual parts are primer coated on exposed surfaces.
- ✓ Combination hook blocks have interchangeable parts with BJ type McKissick® block built up to 1982.
 - Contact Crosby Customer Service for details.
